

### Homework – Deserts and Rainforests Research

Next half-term our geography topic is ‘Why are jungles so wet and deserts so dry?’

Find out where the major jungles/rainforests and deserts are in the world and shade them in on the map below. If possible use green for jungles/rainforests and yellow for deserts.

- a) What do you notice about the location of jungles/rainforests?
- b) What do you notice about the location of deserts?
- c) Find out where the wettest and driest places on Earth are.
